EXPERIENCE

Freelance Full Stack Web Developer — Self-Employed · Remote	2026 – Present
- Designed and developed 20+ custom websites for hotels, resorts, and hospitality businesses. - Built full booking systems with admin dashboards, calendar availability, and payment integration using PHP/MySQL. - Delivered responsive, SEO-optimized frontends using HTML, CSS, JavaScript, and React. - Collaborated directly with clients to gather requirements, present mockups, and iterate on feedback. - Maintained ongoing support and feature enhancements post-launch for long-term client relationships.	
Web Development Intern — Local IT Solutions Company · Pangasinan, Philippines	2025 (6 months)
- Assisted senior developers in building and maintaining company client websites. - Contributed to front-end development tasks using HTML, CSS, and JavaScript. - Participated in code reviews, gaining exposure to best practices in web development.	
Freelance Web Developer — Private client – UNITED STATES	2024
- Developed a custom website for an adult home care business focused on elderly services. - Designed and implemented a clean, user-friendly interface tailored for accessibility and trust. - Worked directly with the client to gather requirements and deliver a fully functional web solution	

KEY PROJECTS

Luxury Heaven Hotel Booking System [PHP · MySQL · JavaScript · Full Stack]

Full-featured hotel management web app with real-time booking flow, admin dashboard, room availability calendar, and customer management system.

Hotel Website [HTML · CSS · JavaScript · Google Forms]

Modern hotel showcase website with inquiry system, responsive design, room galleries, and amenity showcase pages.

Veterinary Clinic Management System [PHP (MVC) · MySQL · HTML · CSS · JavaScript · EmailJS]

A full-featured veterinary clinic system with admin dashboard, appointment management, and patient records. Built with MVC architecture, featuring responsive UI and integrated email notifications.

Dental Clinic Management System [PHP (MVC) · MySQL · HTML · CSS · JavaScript · EmailJS]

Modern dental clinic platform with admin panel, scheduling system, and patient management. Designed for smooth clinic operations with responsive design and email-based inquiries.

Iron Forge Gym [PHP (MVC) · MySQL · HTML · CSS · JavaScript · EmailJS]

Dynamic gym website with admin dashboard, membership showcase, and user interaction features. Includes responsive design, service pages, and integrated email inquiry system.
